Fiber Adapter FC126/1126 For HP

Printing in Fiber Optic Networks – A Perfect Solution for HP Printers

FC126 and FC1126 are integrated adapters for connecting HP printers to fiber optic networks. There are many media/fiber converters on the market, FC126 and FC1126, however, are essentially different.

1. Developed in close collaboration with HP, both fiber adapters are specially designed for HP's LaserJet Enterprise range.

2. FC126 and FC1126 are permanently installed on the printer. All connectors are within the printer. This prevents potential eavesdropping and the safety of the fiber optic network is maintained right up to the printer. This built-in adapter maintains all of the printer's features – everything remains as it was.

Once installed, you no longer need to worry about anything.
Just be safe!
